**Fund Type :** Feeder Fund, Other Funds focused on private credit, Foreign Investment Fund

**Investment Policy :** Invests solely in the Class I UD units of the Ares Strategic Income Offshore Access Fund (master fund), averaging no less than 80% of NAV.

The master fund invests at least 95% of its NAV in the Class I units of the Ares Strategic Income Fund (reference fund). The fund may invest or hold derivatives to hedge against risks, but will not specifically hedge against foreign exchange risk. The fund may also engage in borrowing and repurchase contracts for portfolio management purposes up to no more than 50% of NAV.

**Dividend Policy :** No dividend

Fund Details		Cumulative Performance over 5 years (%)																																									
AIMC Category	Miscellaneous																																										
Registered Date	04/06/2024																																										
Registered Capital	8,000 Million Baht																																										
Net Asset Value	2,010,416,108.84 Baht																																										
NAV / Unit	9.5311 Baht																																										
Trustee	Kasikornbank PCL.																																										
Registrar	KTAM																																										
Benchmark																																											
None. The master fund does not have an applicable performance benchmark as investments are in private credit, which are not listed. Therefore, there is no comparable performance benchmark.

Other Information**\*Purchase Units**

- Orders to purchase are accepted on a monthly basis with the first trading day of the month designated as the purchase date for that respective month. Investors must place an order in advance according to the schedule prescribed by KTAM.

Orders to purchase are accepted on a monthly basis with the first trading day of the month designated as the purchase date for that respective month. If that date does not constitute a trading day, the next trading day shall apply. Investors must place an order in advance according to the schedule prescribed by KTAM. Advance order date and actual purchase date will be announced in advance on the company's website.

**\*\*Redeem Units**

- Redemptions will be processed once a quarter, on the first trading day of March, June, September, December of each year, respectively. For auto-redemptions, redemptions occur automatically no more than 12 times a year, at rates KTAM deems appropriate, by switching out to a KTAM money market fund.

Redemptions will be processed once a quarter, on the first trading day of March, June, September, and December of each year, respectively. If that date does not constitute a trading day, the next trading day shall apply. Investors must place the redemption order at least 10 business days in advance according to the schedule prescribed by KTAM. KTAM prescribes the deadline for accepting advance redemption orders and the trade date, whereby investors shall be notified in advance through the company's website.

## 1. Redemption and Settlement

- Investors will receive payment from redemptions by no later than T+32. The settlement period described does not yet include foreign public holidays nor the period for submitting redemption order in advance which involves at least about 10 business days prior to the actual redemption date. Settlement is usually completed within T+5 business days after date of NAV calculation. In normal circumstances, NAV calculation takes place on the first trading day of the following month (which is the unit price of the prior month as prescribed by KTAM in alignment with orders of the master fund) or the NAV is calculated within no more than 27 business days, but not exceeding T+32. If payment settlement is completed ahead of schedule, KTAM will arrange settlement payment within 2 business days after receiving payment from the master fund and the Thai fund's NAV is calculated.
- Investors may not be able to redeem their units if total redemptions exceed the maximum level allowed by the reference fund.

## 2. Fee for premature redemption (Exit Fee)

KTAM will collect an exit fee if units are redeemed prematurely whereby units were held less than 12 months from the subscription trade date. KTAM will not charge an exit fee if the investor had held the units in compliance with the mandatory 12-month holding period, as measured from the subscription trade date to the redemption trade date. KTAM determines the holding period of units being transacted based on a "First In, First Out" (FIFO) methodology. Investors may not specify the units they intend to redeem.

Switch-out orders within the same fund will not incur an exit fee, but the units' holding period will be refreshed. Auto-redemptions will not incur an exit fee either, unless prescribed otherwise.

## 3. KTAM will reject an advanced order placed by an investor to purchase, redeem, or switch units, if the order is placed after deadlines prescribed by KTAM. If the investor still intends to make the transaction, the investor will need to submit those orders again within the scheduled deadline at the next trading interval, according to schedules shown in the prospectus or as announced on the KTAM website.

## 4. Rebate fee received from the foreign asset management company is 0% (if the master fund provides a partial rebate as a positive gesture for the investment flows into the foreign fund, KTAM will book the rebate as the fund's asset).

## 5. The master fund's limit on total redemptions (Redemption Gate)

- Redemption orders placed by the master fund are subjected to approval from the reference fund and must comply with terms and conditions of the reference fund.
- Total redemptions are limited at no more than 5% of the reference fund's NAV per quarter. Redemptions are accepted only once a quarter. As such, redemptions each quarter may only be partially completed or rejected altogether, subject to the reference fund.

Therefore, for redemption orders placed by the Thai fund which were not accommodated by the master fund, KTAM reserves the rights to void those redemption orders placed by unitholders of the Thai fund. If the investor still intends to make the transaction, the investor will need to submit those orders again within the scheduled deadline at the next trading interval, according to terms and conditions that apply to redemptions, unless KTAM prescribes otherwise or takes action that aligns with actions of the master fund or adopts other procedures that KTAM deems appropriate.
